The State undertakes that in such event the Company shall for its purposes hereunder have first call on the power generated and transmitted by such electricity facilities so acquired at levels of supply from time to time

mining water requirements the State and the Company shall (having due regard to the then present or likely future requirements of third parties for water) collaborate and agree on a programme which shall be carried out by the State at the cost of the Company to search for water inside and outside the Mining Lease. The State may at its discretion require the Company to extend such water search to provide a quantity of water greater than that required to supply the Company's daily water requirements but in that event the cost of such search shall be shared by the parties hereto in such a manner as may be agreed to be fair in all the circumstances.

Grant of licence²

(4) If the investigations referred to in subclauses (2) and (3) prove to the satisfaction of the Minister the availability of any suitable underground water source in or near the Mining Lease which can continue to be drawn on by the Company without seriously affecting the water level in that water source beneath the Mining Lease or adjacent areas or the availability of water in the adjacent areas the State shall grant to the Company a licence to develop and draw from that source at the Company's cost but without fee, the mining water requirements on such terms and conditions as are necessary to ensure good water resource management as the Minister may from time to time require and during the continuance of this Agreement grant renewals of any such licence PROVIDED HOWEVER that should that source in the opinion of the Minister prove hydrologically inadequate to meet the mining water requirements, the State may on at least 6 months prior notice to the Company (or on at least 48 hours prior notice if in the opinion of the Minister an emergency situation exists) limit the amount of water which may be taken from that source at any one time or from time to time to the maximum which that source is hydrologically capable of meeting as aforesaid.

- (b) where the Company draws water from that water source the State shall ensure that it is a condition of the grant to third parties that in the event that the capacity of that water source is reduced, such reduction shall be first applied to the third parties and thereafter if further reduction is necessary the State's and the Company's requirements shall be reduced in such proportion as may be agreed.

Payment for water²

(11) The Company shall pay to the State for water supplied by the State pursuant to subclauses (5) and (8) a fair price to be agreed between the parties hereto having regard to the actual cost to the State of establishing operating and maintaining the supply and provision for replacement of the water supply facilities.

Charges for supply of water to third parties²

(14) The Company may supply water to third parties including the State at a charge to be approved by the Minister after consultation with the Company.
