Schedules of the articles required, and printed forms of tender, may be had at the office of the Railway Storekeeper, Fremantle, where samples can be seen and all particulars obtained.

Separate tenders will be received for each schedule (or for classes under a schedule) but they must include the whole of the articles therein mentioned, and a separate price must be stated for each article. Each sheet, and the whole of a schedule, or any class thereunder, must be signed. The value of all packages, cases, casks, &c., whether bulk be broken or not, must be included in the prices stated in the contractor's tender; all such packages, &c., to be considered the property of the Railway Department, and no charges or expenses whatsoever beyond the price tendered and set out in the schedule will be allowed to the contractor for any articles or packages, cases, casks, &c.

The rates, extensions, and additions must be without erasure or discrepancy, otherwise the tender may be set aside and not entertained.

Security will be required either (1), by Bank deposit receipt in favor of the Commissioner of Railways; (2) by cash deposit; or (3) by the bond of two responsible persons for the due performance of the contract; as the tenderer may elect.

The security under the two first methods will be calculated at ten per cent. upon contracts not exceeding £1,000; but on contracts exceeding £1,000 the security will be calculated at ten per cent. up to £1000, and five per cent. on the amount over such sum.

In the event of the security by bond being selected, the tender must bear the *bona fide* signatures, duly witnessed, of the tenderer and of two responsible persons (to be subject to the approval of the Commissioner of Railways) willing to become bound for the due fulfilment of the contract, in a sum not exceeding the gross amount of the contract calculated for the whole period over which it extends.

Every tender must be accompanied by a deposit receipt for a sum equal to five per cent. of the annual amount for

which the tenderer is willing to undertake the service, but in no case will the deposit be required to exceed £100. The money to be lodged in a bank in the name and to the credit of the Commissioner of Railways, and to be absolutely forfeited to the Government in case the person whose tender may be accepted shall fail to complete the security or bond to the satisfaction of the Commissioner of Railways within fourteen days of the date of notice being received by the tenderer of the acceptance of his tender. The deposit will be returned to the successful tenderers on their security or bond being completed, and to unsuccessful tenderers on application, and on their signing receipts for the respective amounts.

Tenders must be enclosed in a separate envelope, *must have the words "Tender for—"* (as the case may be) *written thereon*, and deposited in the Tender-box, Works and Railways Office, Barrack Street, Perth.

The lowest or any tender will not necessarily be accepted.

## CONDITIONS OF CONTRACT.

1. The whole of the Articles in the foregoing schedules, required for the service of the Government Railways of Western Australia, are to be strictly in accordance with the samples and specifications, and in every respect to be of the very best description, quality, and manufacture—subject to the approval of the Commissioner of Railways, the General Manager of Railways, Locomotive Superintendent, and the Railway Storekeeper. The goods will be subject to the examination and test of an inspecting officer appointed by any of the above. The Commissioner of Railways (hereinafter called "The Commissioner," which shall also mean his Deputy or Appointee), will not be bound to issue orders upon the contractor for all the articles enumerated in the schedules, but only for such articles and such quantities of those articles as the Commissioner may order from the contractor from time to time; neither will the Commissioner be bound to take from the contractor any larger supply of any of the articles than the orders which have been issued during the period of contract, viz., from 1st January, 1890, to 31st December, 1892, nor will he be bound to take any of the articles enumerated in the schedules for which orders have not been issued. Should the Commissioner require a larger supply of any article than the quantity stated in the schedules, or should articles of a particular manufacture be ordered, the contractor will be bound to supply the same at the contract rate.

2. All orders for articles required under these contracts will be issued by the Commissioner, the General Manager, and the Railway Storekeeper, or such officers as they may appoint, and contractors will be required to forward the goods in such quantities and to such places as the orders specify, but the department will carry the goods free from any stations on the Railway named on tenders, provided they are properly addressed to the officer who is to receive them, marked "O.H.M.S.," and accompanied by the departmental consignment note. Delivery will not be taken until the goods have been received and accepted by the receiving officer named on the order.

3. Each separate order must be completed and the articles included therein delivered at the Railway Store or station whence they are to be forwarded within forty-eight hours after its receipt by the contractor, failing which the articles may be procured elsewhere at his risk, and any expense incurred by the department over and above the contract price deducted from his account.

4. Each delivery of goods must be accompanied by invoice, together with the departmental order.

5. The Commissioner, General Manager, Locomotive Superintendent, and Railway Storekeeper, or such inspecting officer as they may appoint, will have full power to reject any goods which in their opinion are not in accordance with contract, and the contractor, on receipt of rejection notice, must remove such articles immediately, and supply others in their stead, failing which they will be procured elsewhere, and any expense incurred will be

deducted from contractor's account. Contractors will be required to pay the ordinary carriage both ways upon all rejected goods.

6. A repetition of irregularity in the quantity or quality of the supplies, or of delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding one-fourth the amount of the monthly account, as the Commissioner may direct. It will also be in the power of the Commissioner, upon such repetition, to terminate the contract forthwith.

7. In the event of the contractor failing to carry out the contract, the contract may, in the case of the security being in money, be cancelled, and the security money will be absolutely forfeited as liquidated damages for breach of contract. Should the security be by bond, the contract may either be declared to be cancelled, or the bond be enforced, as the Commissioner may elect.

8. The contractors in all cases will be liable for any expense which may be incurred by the Government in consequence of the non-performance of their contracts.

9. The contractor will be required to prepare his own account monthly on the prescribed form, including all

purchases to the 22nd of each month, and render the same to the Railway Storekeeper, on the 23rd of each month, for certification previously to payment at the Treasury.

10. Contractors are not at liberty to transfer their contracts under cover of a power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognised by the Commissioner.

11. The contracts entered into under these conditions are not to be considered as being infringed or vitiated by the manufacture or importation by the Commissioner of any of the articles for the use of the Railway Department, or by the purchase of any of the articles manufactured in the Penal or other Government establishments, or by other contracts made by the said Commissioner.

12. All prices to be quoted "in bond."
