Bottoms of all cavities shall be carefully raked out before the completion of the building, and all ties kept free from mortar droppings.

Where cavity walls are used, weepholes shall be left at foot of cavity not more than six feet apart, and over all damp-proof courses inserted to protect walls, weepholes shall be left not more than three feet apart.

## Bedrooms: Additional Ventilation.

133. In every bedroom or room intended or adapted to be used for sleeping and having only one window, there shall be provided cross-ventilation by means of at least 24 square inches of unobstructed opening, in some wall of the room other than that in which the window is situated; such opening may be an additional window, fireplace, fanlight, airbrick, or any suitable means.

occupier to remedy any defect complained of in the said notice, the said owner or occupier shall be liable to a fine, as hereinafter provided, until such time as the building shall be placed in a safe and sanitary condition, and the owner or occupier will be liable for all charges incurred in doing the necessary works, and moreover, if in the opinion of the Board any building does not warrant the expense of repairing, the owner after receiving notice, shall remove the building within one month, and failing this, he will be liable to a fine, as hereinafter mentioned, to remove the building after receiving the notice. The Board may remove same and charge the owners with the cost of so doing, and recover the same in any court of competent jurisdiction and/or sell the material to cover the cost of taking down.

#### Removal of Buildings.

142. No building or erection shall be removed into and erected or re-erected in the Road District, or removed from one part of the District to and erected or re-erected in another part thereof, unless the owner or person carrying out removal first obtain written permission from the Board to do so. Before such permission shall be granted, not less than seven clear days' notice in writing shall be given to the Board or the surveyor of the desire to remove and erect or re-erect such building or erection.

Such notice shall contain or be accompanied by the following:—

- (a) particulars of the situation of building which it is proposed to remove;
- (b) particulars of the situation of and plan of the land upon which it is proposed to erect or re-erect or place such building, showing proposed position thereon, and a tracing copy of such plan to be retained by the Board;
- (c) a plan giving the dimensions of the building and any proposed alterations thereto, and a tracing copy of such to be retained by the Board;
- (d) a specification giving particulars of the construction of the existing building and of the alterations and additions, if any, which it is intended to make when the building is erected or re-erected;
- (e) evidence satisfactory to the Board that such house has not been condemned as dilapidated, insanitary, or unfit for human habitation, and a certificate from the health officer of the Road District from which the building is proposed to be removed that within a reasonable time prior to date of removal, no case of disease of an infectious or contagious nature has occurred therein;
- (f) such further particulars in writing regarding the same as shall be sufficient to enable the Board or its surveyor to determine if all the provisions of any Act of Parliament, By-law, or Regulation applicable thereto are or will be complied with.

No written permission shall be given unless such removed building when erected or re-erected shall comply with the provisions of this By-law as applicable to new buildings.

No building or erection that has been condemned as dilapidated, insanitary, or unfit for human habitation shall be removed into or re-erected within the Road District.

No building or erection in which any case of infectious or contagious disease has occurred during the preceding six months shall be removed into or re-erected within the Road District.

No removed building shall be occupied until the surveyor shall have certified in writing that all the provisions of this By-law have been observed and complied with in respect of such building.

Nothing herein contained shall prevent the alteration of the position of any building within the boundaries of the land on which the same stands: provided that, in its altered position, it shall comply in all respects with this By-law, and that in progress of such removal the building be not taken on to any street, road, or public place.

The Board may in special cases grant permission for the erection of a dwelling-house containing not less than two rooms.

#### Proportions of Site which may be Covered.

143. A dwelling-house, together with its appurtenances to be erected on an allotment, shall not occupy more than two-thirds of such allotment, and the mini-

um of unoccupied area shall not be less than 500 superficial feet: provided that this shall not prevent the Board from granting approval to the erecting of a dwelling-house occupying more than two-thirds of an allotment, or with a minimum of unoccupied space of less than 500 superficial feet, in replacement of an existing dwelling-house which occupies more than two-thirds of that allotment, or has a minimum of unoccupied area of less than 500 superficial feet, as the case may be; provided also, that where situated on a site considered by the Board to be an established shopping locality, the Board may permit a building which is to be a shop and dwelling combined to occupy not more than four-fifths of the allotment, subject to an unbuild area being not less than 500 square feet:

Provided also, that a garage erected at a low level, the roof of which serves as a portion of the garden, yard, or court shall not be included as a building in calculating the proportion of the area of the allotment that may be occupied by a building.

After the adoption of this By-law all subdivisions or resubdivisions of allotments must be such as to have a frontage to a street or road of not less than 50 lineal feet and a depth of not less than 140 lineal feet. Such subdivision and resubdivisions must be lodged with the Board for approval before commencing to build, and shall apply throughout the whole of the Mt. Magnet Road District.

No shop shall be built on land having a frontage of less than 16½ feet to a street or road and an average depth of 100 feet. There shall be back access from right-of-way ten feet wide at least. For the purpose of this clause, the Board may agree to a subdivision with frontage less than 50 feet, but notwithstanding any such approval, no dwelling shall be erected upon the subdivided land except in accordance with these By-laws.

No land upon which any dwelling-house has been erected shall thereafter be reduced in area below the minimum area prescribed by this By-law; provided always, that notwithstanding anything hereinbefore provided to the contrary, the Board may on application in writing, setting forth the grounds of the application, under special circumstances, and for special causes, and at a meeting of which due notice has been given to each member, declare that the provisions of this By-law either in whole or in part shall not apply to any particular area of land.

No building shall be erected in such a position that it shall lie between another building or any part thereof and street unless such other building has a direct and unobstructed access to some other street at least 16 feet wide.

#### Space outside Windows on Side Land.

144. If there be any side wall of a dwelling-house in which it is proposed to provide a window or a door opening, that wall shall be set back, throughout its whole length, from the side line of the allotment to a distance of three feet, in the case of a dwelling of one or two storeys, or to a distance of five feet, in the case of a dwelling of more than two storeys.

#### Kitchen, Laundry, and Bathroom Fittings.

145. Every dwelling-house shall be provided with a completely enclosed bathroom, or combined bathroom and laundry, and with washtubs and copper and other means of washing clothes, and water laid thereto. The floor surfaces of bathrooms on any floor, and of laundries, when above the ground floor, shall be of impervious material properly graded and drained. The washtubs, copper, and bath shall not be placed in the kitchen.

One bathroom in each dwelling shall have at least 30 square feet of floor area, and a combined bathroom and laundry shall have at least 56 square feet of floor area; provided that the Board may in any case where it considers that a bathroom or laundry could be dispensed with, exempt any building from the above provisions, but such exemption shall be given by a resolution of the Board.

#### Enforcement Inspection: Cutting into Building.

146. The Board may order the opening or cutting into or pulling down of any work where the Board has reason to believe or suspect that anything has been done in contravention of the Act or of any By-law,
