WESTERN AUSTRALIA.

(Published by Authority at 2.30 p.m.)

[REGISTERED AT THE GENERAL POST OFFICE, PERTH, FOR TRANSMISSION BY POST AS A NEWSPAPER.]

No. 78.]

PERTH : WEDNESDAY, 7th SEPTEMBER

[1955.]

ELECTRICITY ACT, 1945-1953.

The State Electricity Commission of Western Australia,
Perth, 21st July, 1955.

HIS Excellency the Lieutenant-Governor in Executive Council, under the provisions of the Electricity Act, 1945-1953, and on the recommendation of the State Electricity Commission of Western Australia has been pleased to amend in the manner mentioned in the Schedule hereunder, the Electricity Act Regulations, 1947, made under the Act and published in the *Government Gazette* on the 27th day of June, 1947, and amended by notices published in the *Government Gazette* on the 11th day of July, 1947, and the 25th day of March, 1948.

J. G. BLOCKLEY,
State Electricity Commission.

Schedule.

The abovementioned regulations are amended as follows:—

1. Regulation 3 is amended by deleting the definitions—
“Australian Standard Specifications.”
“British Standard Specifications.”
“Recognised Approvals Authorities.”

2. Delete Part 10 (G.G. 11/7/47) and substitute a new Part 10 as follows:—

Part 10.

Approval of Electrical Appliances.

320. (1) Where an application has been made pursuant to the provisions of Part 10 of the Electricity Act Regulations, 1947, prior to the repeal of that Part by these regulations and the application has not been dealt with by the Commission or refused by the Commission, or withdrawn by the applicant, it shall be deemed to have been duly made under this Part and may be dealt with by the Commission under these regulations.

(2) Approval of any electrical apparatus, appliance or fitting under regulations repealed by these regulations shall not be cancelled or withdrawn by virtue of the repeal of those regulations.

(3) Any reference in these regulations to a certificate of approval issued by the Commission or held by any person shall extend to a certificate of approval issued under the regulations hereby repealed.

Definitions.

321. Unless inconsistent with the context or subject matter, the following terms shall for the purposes of this Part have the meanings given to them hereunder:—

“Act” means the Electricity Act, 1945-1953.

“Applicant” means a person who makes application for approval of an electrical appliance under these regulations or any person who has made application for approval of any electrical apparatus, appliance or fitting under the regulations repealed by these regulations and any person to whom a certificate of approval is transferred as provided for in regulation 329 of these regulations.

“Approved” in relation to an electrical appliance means already approved or hereafter approved by the Commission for the purposes of the Act.

“Approvals Engineer” means an officer of the Commission who has been appointed by the Commission for the purpose of examining and testing electrical appliances for the purpose of these regulations.

“Approvals marking” means the mark, words, symbol or figures or all or any of them as the case may be shown on the certificate of approval of an approved electrical appliance.

“Appliances of the same class” means appliances which come within the scope of the definition of a class of appliance included in any notice published by the Commission in the *Government Gazette* pursuant to section 33B of the Act.

“Appliances of the same type” means prescribed appliances of the same class which in the opinion of the Commission are constructed to the same design and of corresponding materials.

“Published specification” means the relevant Approval and Test Specification published by the Standards Association of Australia and which is that relating to prescribed appliances which are prescribed in a notification published in the *Government Gazette* by direction of the Commission by reference—

- (i) to the classification letters, numbers, month (if any) and year of publication or title of Approval and Test Specifications published by the Standards Association of Australia;
- (ii) to any amendment of the Approval and Test Specifications published by that Association;
- (iii) to any part of the Approval and Test Specifications or any amendment thereof published by that Association.

“Prescribed fee or fees” means the fee or fees specified in the second column of the schedule of fees attached to these regulations which is or are payable to the Commission in relation to the item or items in the first column of that schedule opposite each such fee or fees.

“Duly constituted authority in another State of the Commonwealth” means the State Electricity Commission of Queensland; the Electricity Authority of New South Wales; the State Electricity Commission of Victoria; the Hydro Electric Commission of Tasmania, and the Electricity Trust of South Australia.

Application for Approval.

322. (1) A person may make application to the Commission for approval of an electrical appliance of any class or type by lodging with the Commission an application signed by him in or to the effect of Form No. 37 in the Appendix to these regulations and paying the relevant prescribed fee or fees. The applicant shall deliver to the Commission as many samples of the electrical appliance and such other data in connection therewith, including drawings, photographs and labels as the Commission may then or thereafter require.

(2) Notwithstanding the requirements of subregulation (1) of this regulation if an appliance of the same type is approved within the meaning of the Act by a duly constituted authority in another State of the Commonwealth the Commission may require the applicant to lodge only—

- (a) the application for approval in writing in Form No. 37 in the Appendix to these regulations together with evidence to the satisfaction of the Commission of the approval of the duly constituted authority; and
- (b) such other information or evidence (if any) as the Commission may require; and
- (c) the relevant prescribed fee or fees.

(3) To each electrical appliance delivered to the Commission pursuant to this regulation the applicant or his agent shall attach or affix a label bearing the signature of the applicant or his agent and showing in legible writing—

- (a) the name in full of the applicant;
- (b) the date of application to the Commission for the approval of the electrical appliance;
- (c) the designation of the class of electrical appliance under which it is prescribed;
- (d) the type and description of the electrical appliance;
- (e) the manufacturer's catalogue number, type number, or other means of distinguishing the type of electrical appliance.

Testing of Electrical Appliances.

323. (1) The Commission—

- (a) shall decide where and by whom the sample or samples of the electrical appliance which is to be examined or tested or both, shall be examined or tested or both for the purpose of considering the application;
- (b) may, if there is a published specification which requires sufficient and suitable tests to be carried out on any electrical appliance and sufficient and suitable test results to be obtained, arrange for the electrical appliance to be tested for compliance with such specification and those tests shall be the tests to which the electrical appliance shall be subjected for the purpose of that application and the results shall be the results which it shall be required to attain;
- (c) may accept as correct a certificate of the results of examinations or tests or of both examinations and tests carried out on a sample of the electrical appliance under the direction of—
 - (i) the Approvals Engineer;
 - (ii) the duly constituted authority in another State of the Commonwealth; or
 - (iii) some person, body or authority whose examinations and tests are deemed by the Commission to be sufficient for the purpose of these regulations;

- (d) shall decide the date upon and from which any new published specification or any revision of or amendment to any published specification shall be applied for the purpose of these regulations.

(2) If an applicant pays to the Commission the sum of one pound (£1) the Commission shall furnish him with a written statement setting out the particulars and results of tests carried out by the Commission on the sample or samples of the electrical appliance submitted by him for approval.

(3) If an applicant pays to the Commission such sums as the Commission may reasonably demand to cover the cost of the test or tests (including indirect expenses of any test or tests) the Commission may at the request of the applicant re-test a sample or samples of an electrical appliance submitted by the applicant for approval. Such re-test shall be carried out in the presence of the applicant or of his representative at a time and place to be fixed by the Commission.

Testing Under Special Circumstances.

324. If a person desires approval of an electrical appliance but is unable for reasons thought by the Commission to be sufficient to submit a sample or samples of the electrical appliance as required by the Commission for examination and testing, the Approvals Engineer shall at such times and at such place and in such manner and on such conditions as he thinks fit inspect a sample or samples of the electrical appliance and test or cause the sample or samples to be tested. The applicant shall, in addition to the fee prescribed in the schedule of fees for testing the electrical appliance, pay all additional costs incurred by the Commission as a result of testing the electrical appliance at the time and place and in the manner and conditions fixed by the Approvals Engineer.

Re-test.

325. (1) If the applicant for approval of an electrical appliance which is not approved because samples have not passed all tests or any of them, considers that samples of the electrical appliance shall after adjustment or alteration pass all the tests, then the applicant may adjust or alter the samples of the electrical appliance and submit them for re-examination and re-testing.

(2) The applicant shall—

- (a) furnish the Commission with full and detailed information of any such adjustment or alteration and with such further information as the Commission deems necessary;
- (b) pay to the Commission any fees required by the Commission in respect of any such re-examination and re-testing, but the fees shall not exceed the prescribed fee or fees for the examination and testing of an electrical appliance of that type or class.

Certificate of Approval.

326. (1) When the Commission grants approval of an electrical appliance it shall give to the applicant a certificate of approval in or to the effect of Form No. 38 in the Appendix to these regulations.

(2) Approval of an electrical appliance may be granted unconditionally or may at the discretion of the Commission be granted on and subject to conditions requiring warning to be given to persons using or purchasing or hiring the electrical appliance or precautions to be observed in the use of the electrical appliance or as to other matters tending to safety in the use of the electrical appliance. The conditions shall be endorsed on the certificate of approval.

(3) No person shall sell, hire, expose for sale or hire or advertise for sale or hire, an electrical appliance so as not to comply with any conditions specified on the certificate of approval issued by the Commission in respect of that electrical appliance.

(4) The issue of a certificate of approval in respect of an electrical appliance shall not authorise any person to use, sell, hire or expose for sale or hire or connect or install the electrical appliance for use in any place or in any manner—

- (a) forbidden by the Act or any regulations or by-laws made thereunder; or
- (b) for which the consent of the supply authority is required.

(5) No electrical appliance shall be, or be deemed to be approved at any time when—

- (a) a certificate of approval has not been issued for the electrical appliance; or
- (b) the approval of the electrical appliance has been withdrawn; or
- (c) it does not comply in full with every term, provision or condition endorsed upon the certificate of approval thereof given by the Commission in respect of the electrical appliance.

(6) No person shall, in connection with an electrical appliance which has not been approved, represent that such electrical appliance has been approved or shall be approved or that the electrical appliance complies with the requirements of the Commission for the purpose of this part of these regulations.

Stamping and Labelling of Approved Electrical Appliances.

327. (1) No person shall sell, hire or expose for sale or hire or advertise for sale or hire or cause to be sold or hired or exposed for sale or hire or advertised for sale or hire any electrical appliance for which a certificate of approval has been issued unless the electrical appliance is permanently and clearly stamped or labelled with the mark, words, symbol or figures or all or any of them as the case may be shown as the approvals marking on the certificate of approval of the electrical appliance. For the purpose of these regulations an electrical appliance shall be deemed to have been stamped if the approvals marking is moulded, embossed, engraved, incised or indented or otherwise permanently marked on the electrical appliance to the satisfaction of the Commission.

(2) If in the opinion of the Commission as notified on the certificate of approval of an electrical appliance, the electrical appliance is too small to be stamped in compliance with subregulation (1) of this regulation or for any other sufficient reason should not be so stamped, the electrical appliance shall be deemed to comply with this regulation if it is packed by the manufacturer or applicant in a container or wrapping marked, or to which container or wrapping is affixed, a label marked with—

- (a) the approvals marking on the certificate of approval issued for the electrical appliance; and
- (b) the nature of the electrical appliance.

(3) An applicant to whom has been issued a certificate of approval endorsed with any conditions as set out in regulation 326 of these regulations shall clearly label the electrical appliance for which the certificate of approval was issued with a label setting out the conditions under which the certificate was issued.

(4) No person shall sell or hire or expose for sale or hire any electrical appliance which has been approved on conditions in accordance with regulation 326 (2) of these regulations unless the person adequately notifies the purchaser or hirer of the conditions.

(5) In respect of an electrical appliance which has not been approved under these regulations, no person shall whilst the appliance remains unapproved—

- (a) stamp or label or cause or permit to be stamped or labelled the appliance; or
- (b) place or cause or permit the appliance to be placed in any container or wrapping which is stamped or labelled or marked; or
- (c) affix or attach or cause or permit to be affixed or attached to the container or wrapping of the appliance a label which is stamped or marked

with a marking similar to, or so nearly resembling, a marking authorised by the Commission as an approvals marking as to be likely to deceive.

Modification of Design or Construction.

328. (1) A person to whom has been issued a certificate of approval in respect of an electrical appliance may, if the Commission in writing so approves, alter the design, materials or construction of the electrical appliance in any particular, but the approval shall be given only after examination or testing by the Commission to its satisfaction of a sample or samples of the altered electrical appliance. The Commission shall cause to be endorsed on the relevant certificate of approval particulars of the alteration or alterations so approved and thereupon the electrical appliance so altered shall be approved and shall be deemed to be the approved electrical appliance to which that certificate relates. The applicant shall pay to the Commission any fees demanded by the Commission for any examination or testing carried out under this regulation, but the fees shall not exceed the prescribed fee or fees for examination and testing of an electrical appliance of that type or class.

(2) If the Commission does not approve the alteration of the electrical appliance in any particular it shall so notify in writing the person applying for the approval.

(3) No person shall sell or hire or expose for sale or hire or advertise for sale or hire any electrical appliance purporting to be identical with or similar to an electrical appliance for which a certificate of approval has been issued, but which in the opinion of the Commission is not identical with or similar to the approved electrical appliance by reason of change of design, materials or construction.

Transfer of Certificate of Approval.

329. (1) When an applicant to whom a certificate of approval of an electrical appliance has been issued, disposes of his business or that part of the business to which that certificate of approval is relevant, the applicant may apply in writing to the Commission to have the certificate of approval of the electrical appliance transferred to the person to whom the business or portion of the business has been disposed. Every such application shall be countersigned by the person to whom the business or portion of the business has been disposed and shall be accompanied by the prescribed fee.

(2) The Commission may, if it approves of an application made under subregulation (1) of this regulation, transfer the certificate of approval to the person to whom the business or portion of the business has been disposed.

(3) From the date of the transfer the person to whom the certificate of approval has been transferred shall, in respect of the certificate of approval be entitled to all rights and privileges under and be responsible for all liabilities, responsibilities, duties and penalties under these regulations in the same manner as the original applicant.

Lost or Destroyed Certificates of Approval.

330. If any certificate of approval issued by the Commission is lost, stolen, destroyed, mutilated or defaced, a duplicate certificate of approval may be issued by the Commission upon proof to its satisfaction of the loss, theft or destruction or upon surrender of the mutilated or defaced certificate of approval and on payment of the prescribed fee.

Appliances to be Submitted for Examination and Testing if the Commission so Requires.

331. Notwithstanding anything contained in these regulations, the Commission may, by notice in writing signed by an officer duly authorised in that behalf, at any time require an applicant to whom a certificate of approval has been issued or transferred to submit for examination and testing within a time specified in the notice, a sample or samples of the electrical appliance for which the certificate was issued. An applicant shall within the time specified in the notice deliver or cause to be delivered to the Commission the sample or samples specified in the notice and furnish therewith the particulars required on Form No. 37 in the Appendix to these regulations.

Refusal or Withdrawal or Approval.

332. (1) Without in any way limiting the power of the Commission to grant approval of any electrical appliance the Commission may refuse to grant approval to any application made under this Part—

- (a) if any specification, drawing, photograph, label or other information delivered to the Commission in accordance with this Part is found to be misleading;
- (b) if the applicant shall fail or refuse to submit either for examination for testing or both the sample or samples of the electrical appliance as required under this Part;
- (c) if an electrical appliance of the same type or of the same class for which approval is sought when examined and tested in accordance with the provisions of the relevant published specifications, fails to comply with the published specifications;
- (d) if in the opinion of the Commission the electrical appliance for which approval is sought is dangerous or is likely to be or to become dangerous in normal use;
- (e) if in the opinion of the Commission representations are made by the applicant or advertisements are employed by the applicant in connection with the selling or hiring of electrical appliances of that type or class for which approval is sought which would mislead as to the significance of approval or the use for which approval may be granted.

(2) The Commission may withdraw approval already granted in respect of any electrical appliance whether the approval was granted under this Part or under the regulations repealed by this Part—

- (a) if an electrical appliance of the same class or of the same type for which approval has been granted is, when examined and tested in accordance with the provisions of the relevant specifications, found at any time not to conform to the published specifications;
- (b) if in the opinion of the Commission the electrical appliance for which approval has been granted is dangerous or is likely to be or to become dangerous in normal use;
- (c) if the applicant shall at any time fail or refuse to submit either for examination or testing or both the sample or samples of the electrical appliances as required under this Part;
- (d) if the applicant shall at any time fail or refuse to supply particulars required under this Part;

- (e) if in the opinion of the Commission representations are made by the applicant or advertisements are employed by the applicant in connection with the selling or hiring of electrical appliances of the type or class for which approval has been granted which would mislead as to the significance of approval or the use for which approval is granted;
- (f) if any information delivered to the Commission pursuant to this Part is found to be false or misleading;
- (g) if the applicant has been convicted by a Court of competent jurisdiction for a contravention of a breach of the Act or of this Part;
- (h) if the certificate of approval granted in the State where the electrical appliance was originally approved is withdrawn by the duly constituted authority of that State;
- (i) if the applicant so requests.

Notification of Withdrawal of Approval.

333. (1) When the Commission withdraws approval of an electrical appliance otherwise than at the request of the applicant, the Commission shall advertise in the *Government Gazette* notice of the withdrawal of approval, therein specifying the name of the applicant, the class or type of electrical appliance, the date of the certificate of approval, the approvals marking (if any) thereon referred to and the date on or from which the withdrawal of approval is to take effect. The Commission shall send to the applicant by prepaid post at the address of the applicant recorded in the Register of Approval Electrical Appliances a copy of that notice, and after the date specified in the notice as the date on or from which withdrawal of approval is to take effect, no person shall—

- (a) sell or hire or expose for sale or hire or advertise for sale or hire an electrical appliance in respect of which the certificate of approval was withdrawn; or
- (b) stamp or label any electrical appliance with the approvals marking referred to on the certificate of approval issued in respect of the electrical appliance the approval to which was withdrawn.

(2) The applicant shall within fourteen (14) days of the despatch by the Commission of the notice referred to in subregulation (1) of this regulation return to the Commission the certificate of approval in respect of the electrical appliance referred to in the notice.

Deferment of Approval.

334. The Commission may at its discretion defer any decision as to the approval or non-approval of any application under this Part of these Regulations.

Purchase of Electrical Appliances for Inspection

335. The Commission may purchase an electrical appliance from any person dealing in electrical appliances. Any person (hereinafter referred to as the dealer) who deals whether by wholesale, retail or otherwise in any electrical appliance shall, when requested so to do by an officer of the Commission duly authorised in that behalf, sell to the Commission any electrical appliance sought to be purchased by the officer on behalf of the Commission for the same price as the dealer charges other purchasers for the electrical appliance and, if the price cannot be identified, for a fair price. The officer shall at the time of the purchase and before carrying away the electrical appliance inform the dealer or his servant or agent, that he is purchasing the electrical appliance on behalf of the Commission for the purpose of these regulations and shall if required by the dealer produce evidence of his authority and shall affix to the electrical appliance or (as the case requires) its container—

- (a) a label showing in legible writing—
 - (i) the name and address of the dealer;
 - (ii) the date of purchase as aforesaid;
 - (iii) the nature of the electrical appliance;

- (iv) if the electrical appliance is of a class or type that is prescribed, the designation of the class or type under which it is prescribed;
 - (v) the type of flexible cord (if any) supplied with or sold for use with the electrical appliance purchased;
 - (vi) the signature of the authorised officer; and
- (b) any pamphlet, leaflet, or other writing descriptive of the electrical appliance or instructions for use thereof supplied with the electrical appliance so purchased; and
- (c) the receipt of the dealer (or his servant or agent) for the money paid for the electrical appliance so purchased;
- and the dealer shall if he is then or thereafter requested by the authorised officer forthwith inform the officer when and from whom he obtained the electrical appliance so purchased and shall produce for inspection by the authorised officer all vouchers, invoices or accounts in his possession showing when and from whom the dealer obtained the electrical appliance.

Obstruction of Officers.

336. (1) No person shall in any way obstruct, hinder, interfere with or aid or abet, encourage, invite or instruct any person to obstruct, hinder or interfere with any authorised officer exercising any powers conferred under these regulations.

(2) No person shall give any false information either verbally or in writing to the Commission or to the Approvals Engineer or to any other duly authorised officer of the Commission in relation to an electrical appliance or its sale or hire or exposure for sale or hire or as to its marking or labelling, or as to the marking or labelling of any container or wrapping in which it is sold or hired or exposed for sale or hire.

Register of Prescribed Electrical Appliances and Register of Approved Electrical Appliances.

337. (1) The Commission shall cause to be kept—

- (a) a register to be called the "Register of Prescribed Electrical Appliances" setting out a list of the classes and types of electrical appliances prescribed by notice in the *Gazette* and a reference to the date of the *Gazette* in which such list was published;
- (b) a register to be called the "Register of Approved Electrical Appliances" containing the following information in respect to each class or type of electrical appliance approved by the Commission—
 - (i) particulars of the electrical appliance;
 - (ii) the marking required by these regulations;
 - (iii) all conditions imposed by the Commission upon approval;
 - (iv) the purpose or purposes for which approval has been given;
 - (v) the date of approval;
 - (vi) the name (in full), place of abode and place of business of the applicant;
 - (vii) particulars of approved modifications of design, materials or construction (if any);
 - (viii) such further or other particulars as the Commission may from time to time think fit.

- (2) A person upon payment of the prescribed fee or fees may—
- (a) inspect the registers during the normal business hours of the Commission;
 - (b) obtain certified copies of entries in the registers.

Change of Address.

338. An applicant who changes his address after the issue to him of a certificate of approval shall within one (1) month of changing his address give notice to the Commission of his new address.

Fees for Examination, Testing, etc.

339. The fees to be paid for examination, testing and reporting on any electrical appliance or for searching and inspecting registers under these regulations shall be in accordance with the schedule to these regulations.

Penalties.

340. A person committing a breach of any regulations in this Part either by act or omission shall on conviction be liable to a penalty not exceeding £20.

Proceedings.

341. All proceedings in respect of penalties or forfeitures may be taken in the name of any person authorised in that behalf by the Commission.

3. Insert before the Appendix the following Schedule of Fees:—

Schedule of Fees.

General Fees.

	£	s.	d.	No. of Samples to be Submitted.
Application for approval of electrical appliance, including an appliance initially approved by a duly constituted authority in another State of the Commonwealth	1	0	0	
Application for transfer of Certificate of Approval	1	0	0	
Application for duplicate Certificate of Approval	10	0	0	
Application for approval of alteration of design, materials or construction of an approved electrical appliance	10	0	0	
Inspection of Register of Prescribed Electrical Appliances or of Register of Approved Electrical Appliances	2	6	0	
Certified copy of one entry in Register of Prescribed Electrical Appliances or of Register of Approved Electrical Appliances	5	0	0	
Certified copy of all entries in Register of Approved Electrical Appliances applicable to any one person or of approval of any one type of approved electrical appliance	15	0	0	

Testing Fees.

Electric bread toaster	5	0	0	Two
With thermal control an additional	2	0	0	
With lamp holder an additional	2	0	0	
Electric Griller	5	0	0	Two
With thermal control an additional	2	0	0	
With lampholder an additional	2	0	0	
With ceramic hotplate an additional	3	0	0	
Electric Radiator	5	0	0	Two
With lampholder an additional	2	0	0	
Electric Portable Immersion Heater	5	0	0	Two
Electric Kettle or Electric Saucepan	5	0	0	Two
With thermal control an additional	2	0	0	
With lampholder an additional	2	0	0	
Electric Jug	5	0	0	Two
With thermal control an additional	2	0	0	
Electric Iron	5	0	0	Two
With thermal control an additional	2	0	0	
Electric steam iron an additional	2	0	0	

Schedule of Fees.
General Fees.

	£	s.	d.	No. of Samples to be Submitted.
Apparatus Connector	5	0	0	Two
Earth leakage circuit breaker	12	0	0	Two
Miniature over-current circuit breaker	14	0	0	Two
With earth leakage protection an additional	2	0	0	
Plug without fuse	3	0	0	Two
Plug with fuse	10	0	0	Two
Plug with thermal overload	8	0	0	Two
Plug socket	4	0	0	Two
Plug socket with plug (without fuse)	6	0	0	Two
With fuse	13	0	0	
With thermal overload	11	0	0	
Wall switch	6	0	0	Three
If "A.C. only" type of switch an additional	2	0	0	
Electric soldering iron	5	0	0	Two
With thermal control an additional	2	0	0	
Flexible cord	15	0	0	One coil of 50 yds.
Normal bayonet lampholder	4	0	0	Three
Electric hand lamp	2	0	0	Two
With lampholder an additional	2	0	0	
With switched lampholder an additional	4	0	0	
Normal bayonet lampholder adaptor	3	0	0	Three
With lampholder outlet or outlets an additional	1	0	0	
Cord extension socket	5	0	0	Two
Plug socket adaptor	6	0	0	Two
Electric dry shaver	6	0	0	Two
With transformer an additional	3	0	0	
Cord line switch	6	0	0	Two
Portable lamp standard or bracket	3	0	0	Two
With lampholder an additional	2	0	0	
With switched lampholder an additional	4	0	0	
Portable electric range	6	0	0	Two
With thermal control an additional	2	0	0	
With lampholder an additional	2	0	0	
With ceramic hotplate an additional	3	0	0	
Non-flexible electric bed warmer	5	0	0	Two
With thermal control an additional	2	0	0	
With transformer an additional	3	0	0	
With lampholder an additional	2	0	0	
With flexible cord an additional	15	0	0	One coil of 50 yds.
Flexible electric heating pad	6	0	0	Two
With thermal control an additional	2	0	0	
With transformer an additional	3	0	0	
With lampholder an additional	2	0	0	
With flexible cord an additional	15	0	0	One coil of 50 yds.
Decorative lighting outfit	4	0	0	Two sets
With transformer an additional	3	0	0	
With flexible cord an additional	15	0	0	One coil of 50 yds.
With plug or lampholder adaptor an additional	3	0	0	
Portable electric vacuum cleaner	8	0	0	Two
Extra low voltage transformer	4	0	0	Two
With lampholder an additional	2	0	0	
With plug socket an additional	2	0	0	
Switch which is not approved under another application, and which is incorporated in an appliance, and additional	4	0	0	
If switch "A.C. only" type, an additional	6	0	0	

Note: Testing fees which in the above schedule are marked as additional fees are payable only if the items to which they refer have not already been approved under another application.

4. The Appendix is amended by deleting Forms S.E.C. 37, S.E.C. 38 and S.E.C. 39 and substituting new Forms S.E.C. 37 and S.E.C. 38 as follows:—

Form S.E.C. 37.

The State Electricity Commission of Western Australia.

Electricity Act, 1945-1953.

Part 10.—Approval of Electrical Appliances.

APPLICATION FOR APPROVAL.

To the State Electricity Commission of Western Australia,
Perth.

I/We....., hereby make application for approval and examination* and test* under Part X Electricity Act Regulations—Approval of Electrical Appliances—of the electrical appliance described hereunder.
