1. All fees and charges payable to the Board as set forth in Schedule "A" shall be paid at the times and manner mentioned, unless otherwise ordered.

2. The "Secretary" as referred to in these by-laws means the person for the time being employed by the Board as Secretary of the cemetery, and such person shall, subject to the Board, exercise a general supervision and control over all matters pertaining to the cemetery and to the carrying out and enforcement of these by-laws and the direction of such person or persons shall in all cases and for all purposes be presumed to be and have been the direction of the Board.

3. A plan of the cemetery showing the distribution of the land, sections, blocks and graves numbered; a register of burials and a register of Certificates of Right of Burial shall be kept at the office of the Board.

4. All applications for interment shall be made at the office of the Board in such time as to allow at least eight working hours' notice being given prior to the time fixed for burial, otherwise an extra charge shall be made.

Prior to conducting any interment within the cemetery or making use of the cemetery for any purpose connected with internments, every undertaker shall pay to the Board an annual fee of \$4.20 and shall, at the time of making such payment, give, if required, his assent in writing to such conditions as the Board deems fit to impose. Upon such assent being given and payment of the fee made, he shall receive a "Permit" as per Schedule "E" to hold good during good behaviour and until the 1st day of July following, and unless in possession of such permit no undertaker shall be allowed to engage in or carry out any duty or work within the cemetery.

7. (1) Subject to paragraph (ii) of this by-law, a person shall not bring a dead body into the Cemetery unless he or his representative has first handed to the Secretary for inspection and return a medical certificate of death or a Coroner's order for burial in respect of the body.

Every person who has the exclusive right of burial in any grave shall keep such grave and any erection or construction thereon in proper repair, and if after receiving notice in writing from the Board requiring such repairs to be executed shall fail to do so, then after the expiration of 28 days the Board may cause such repairs to be executed and may recover the costs thereof from such person in accordance with the Cemeteries Act, or cause such structure to be removed.

24. A notice sent by registered post to the address of any such owner or person last known to the Secretary shall be sufficient notice under these by-laws.

25. The placing or erection of any monument, tombstone or enclosure of an estimated value of \$20 or over will not be permitted until a Certificate of Right of Burial shall first have been had and obtained.

THE Council of the Western Australian Institute of Technology has made the Statute set out in the Schedule hereunder.

H. W. PETERS,
Secretary.

Schedule.

Statute 9.

ELECTION OF STUDENT GUILD REPRESENTATIVES TO COUNCIL.

1. This Statute applies to elections of members of the Student Guild to the Council of the Institute pursuant to paragraph (ga) of section 9 of the Act.
2. In this Statute unless the contrary intention appears—
“candidate” means a member seeking election to the Council of the Institute;
“Guild Councillor” means a voting member of the Guild Council;
“Guild” means the Student Guild referred to in section forty-four of the Act; and
“member” means a member of the Guild.
3. (1) The following persons may be candidates—
(a) a Guild Councillor who is, in accordance with this Statute, nominated by two other Guild Councillors; and
(b) any member who is, in accordance with this Statute, nominated by any three other members, no two of whom shall be from the same Division or branch.
(2) A Guild Councillor may be a candidate under paragraphs (a) and (b) of subsection (1) of his section.
4. (1) An election, other than the first election, shall be held at the December meeting of the incoming Guild Council in each year and the Guild shall fix a date accordingly for the close of nominations.
(2) As soon as practicable after the coming into operation of this Statute the Guild shall fix a date for the close of nominations for the first election and that election shall be held at the first meeting of the Guild Council after that date.
5. (1) In respect of each election, the Guild shall, at least two weeks before nominations close, post notices in a prominent place, at each site where any course of instruction, lecture, or class is held by or on behalf of the Institute, calling for nominations for candidates.
(2) The Guild shall issue nomination forms and make them available at the Guild office.
(3) A candidate shall be nominated on a form issued by the Guild and, where he is a candidate under paragraphs (a) and (b) of subsection (1) of section 3, he shall be nominated separately on two such forms under those paragraphs respectively.
6. The Executive Officer of the Guild is the Returning Officer and shall arrange for voting papers to be made available for Guild Councillors.
7. The Returning Officer shall conduct an election by separate secret ballots for the candidates under paragraphs (a) and (b) respectively of subsection (1) of section 3 but so that the first ballot is for the candidate under that paragraph (a) and, where a candidate who is elected in that ballot was also nominated as a candidate under that paragraph (b), he thereupon ceases to be a candidate thereunder.
8. Each candidate may, in writing delivered to the Returning Officer at least two days before the election, appoint any member to be a scrutineer to represent the candidate at the scrutinies of the voting papers and counts of the votes.
9. To vote in a ballot a Guild Councillor shall mark his voting paper by placing—
(a) the numeral 1 opposite the name of the candidate to whom he gives his first preference; and
(b) the numerals 2, 3, 4, and so on, as the case requires, opposite the respective names of the remaining candidates so as to indicate by numerical sequence the order of his preference for them,
but, where there are not more than two candidates in the ballot, the placing of the numeral 1 opposite the name of one candidate without placing any numeral opposite the name of the other, is deemed to be a vote showing the order of preference accordingly.
10. (1) The Returning Officer shall, with the assistance of such other persons, not being candidates or Guild Councillors, as the Guild may appoint, ascertain the result of the ballot by scrutinies of the voting papers and counts of the votes.
(2) Scrutineers may inspect all proceedings at scrutinies and counts.

11. (1) The Returning Officer shall count the total number of first preference votes given to each candidate.
- (2) Where a candidate has received the largest number of first preference votes and that number is an absolute majority of votes, the Returning Officer shall declare that candidate elected.
- (3) Where no candidate has received an absolute majority of first preference votes, the Returning Officer shall make a second count.
- (4) On the second count, the candidate who has received the least number of first preference votes shall be excluded and each vote counted to him shall be counted to the candidate next in order of the voter's preference.
- (5) After the second count, if a candidate has an absolute majority, the Returning Officer shall declare that candidate elected but, if no candidate has an absolute majority, the process of excluding the candidate who has the least number of votes and counting each of his votes to the continuing candidate next in the voter's preference shall be repeated until one candidate has received an absolute majority of votes, and thereupon the Returning Officer shall declare that candidate elected.
- (6) Where all the preferences have been distributed and two or more candidates have an equal number of votes, the Returning Officer shall conduct a further ballot between those candidates and, if after that ballot they are still tied, he shall determine by lot the candidate that shall be elected.

(4) Glazed louvres may be used in lieu of windows and ventilators subject to their providing a clear light area of not less than 2 square feet per closet pan and a clear ventilation area of not less than 24 square inches per closet pan. The position of a louvre shall be as laid down in subregulation (3) of this regulation and in no instance is the top of the fixed louvre to be lower than 9 inches from the ceiling.

(2) Every airlock shall be provided with direct ventilation to the open air from a point near ceiling level. Such ventilation shall be provided by a vent, or vents, carried as direct to the open air as is practicable, and boxed through-out, and having a minimum clear area at any point of not less than 24 square inches for every 100 square feet or part of 100 square feet of floor area of airlock.

(3) For the purposes of these regulations an external wall shall be considered as such where an open verandah, porch or similar structure does not extend beyond 8 feet from the external wall.

Alternative Methods of Lighting and Ventilation of Water Closets, Urinals, Slop Hoppers and Airlocks.

8. (1) Subject to the approval in writing of the Commissioner first being obtained, water closets and airlocks in buildings, other than hospitals and similar institutions, may be ventilated by one of the following methods, instead of by the method set out in regulations 5 and 7, namely—

- (a) In buildings up to four-storeys in height (measured from the floor of the lowest water closet to be so ventilated) the water closet apartment and airlocks may abut onto a ventilation shaft, open to the sky and carried to such height as may be necessary to prevent the deflection of wind currents down the shaft by neighbouring structures. No rooms, other than water closets airlocks, bathrooms, urinals and slop hopper apartments may open onto such shaft.

The area of such ventilating shafts and the maximum number of water closets, urinals, or slop hoppers to be served by any one such shaft, shall be in accordance with the following table:—

Height of Ventilating Shaft in Storeys.	Minimum Area of Ventilating Shaft.	Maximum Permissible Number of Closet Pans or Urinals on any Vent Shaft.
1 or 2	Sq. Ft. 16	4
3 or 4	1st or 2nd Storey 16 3 Storey 20 Top Storey 24	10

No dimension of such ventilating shaft shall be less than 4 feet.

- (b) In buildings in which such ventilating shaft is 3 or 4 storeys in height, a ventilating duct, having a clear area of not less than 2 square feet shall be carried from the bottom of the ventilating shaft to an external wall and shall be boxed throughout.
- (c) Every water closet or airlock which abuts a ventilating shaft as aforementioned shall have a window, capable of being opened to such shaft, with an effective glass area at least equal to 1/5 of the floor area of the apartment with a minimum of 4 square feet and in addition shall be provided with ventilating openings to the ventilating shaft, having a total clear area at any point of not less than 50 square inches per closet pan.
- (d) Where water closets are situated in a basement or cellar then, in addition to the abovementioned requirements, there shall be provided a ventilating duct carried through the roof, fitted with an approved cowl designed either to give a positive up draught or down draught in the duct at the option of the owner. Such ventilating duct and cowl shall be capable of changing the air in each water closet or airlock served by it, at least 10 times per hour when subject to a wind velocity of 4 miles per hour, the inside and outside temperatures being equal. The area of the ventilating duct shall be 24 square inches for each closet pan served by the said duct.

(2) A water closet apartment containing not more than one water closet or slop sink, may be constructed other than on an external wall, provided that a horizontal duct communicating directly with the external air at the ceiling level of such apartment, is constructed of the following dimensions—Length not exceeding 4 feet 6 inches measured from the inside face of the external wall to the inside face of the apartment wall, width and height not less than 3 feet and 2 feet respectively, measured internally.

(3) The water closet may be ventilated by a mechanical system of exhaust ventilation in compliance with the requirements of regulation 9.

(4) Every water closet permitted by the Commissioner to be ventilated in accordance with this regulation shall be separately lighted by electricity and provided with a separate switch within the compartment.

Mechanical Ventilation of Water Closets, Airlocks, Shop Hopper Apartments and Urinal Apartments.

9. (1) Every system of mechanical ventilation shall be approved by the Commissioner and the minimum rate of air change for airlocks and water closet, slop hopper or urinal apartments shall be 50 cubic feet per minute per fixture but in no case less than 10 air changes per hour.

(2) In every such case the ventilating fan and the power unit operating same shall be in duplicate, except that single units will be permitted in private dwellings only if in the opinion of the Commissioner, the main shaft shall be designed to act as an efficient natural vent in the event of the mechanical equipment failing.

(3) The system of mechanical ventilating provided shall be separate and distinct from any other system of mechanical ventilation in a building and shall be of the exhaust type.

(4) Upon completion, the owner or his representative shall carry out such tests of the ventilating system as the Commissioner may deem necessary.

(5) Such mechanical system shall be operated continuously and maintained in good working order and condition, under the direction of a properly qualified person.

(6) Any such mechanical system shall be open to inspection by the officers of the Department at all reasonable times and shall be subject to such tests as the Commissioner shall, from time to time, direct.

(7) The owner shall be deemed to commit an offence whenever—

(a) there is any failure to comply with any of the requirements of this regulation; or

(b) the ventilating system fails, for a period longer than 48 hours, to operate continuously and efficiently.

Offences.

10. Any person failing to do any act directed to be done, or doing any act forbidden to be done, by any of these regulations is guilty of an offence.
