The following is to be inserted between Clause 3.5.9 and Clause 4.2.3:—

PART IV—Miscellaneous.**4.1 Car Parking.**

4.1.1 No person shall develop land unless vehicle parking is provided in accordance with the requirements set out in the Development Table for the land uses shown therein and in accordance with the additional requirements set out hereunder.

4.1.2 The parking space shall measure not less than the dimensions shown in Appendix VI for the type of parking layout adopted.

4.1.3 All car parking spaces, and all necessary access ways shall, unless the Council agrees otherwise and except as hereinafter provided, be paved.

4.1.4 Where the maximum dimension of any open car parking area exceeds twenty metres in length or width, one car parking space in every ten shall be used for garden and tree planting to provide visual relief and, so long as the garden and tree planting areas shall be maintained in good order, those car parking spaces shall be included in calculations as car parking and not as landscaping.

4.1.5 Where the owner of land can demonstrate to the satisfaction of the Council that there is not the demand for the number of parking spaces specified in the Development Table landscaping may be provided in lieu of car parking spaces not constructed and the said landscaping shall be included in calculations as car parking but not as landscaping; provided that the Council may from time to time require that the additional parking spaces be provided.

4.1.6 Where in a Commercial Zone a developer can satisfy the Council that the minimum car parking requirements cannot be provided on the site the Council may accept a cash payment in lieu of the provision of car parking spaces but subject to the following requirements of this clause:—

- (a) A cash-in-lieu payment shall be not less than the estimated cost to the owner of providing and constructing the parking spaces required by the Scheme, plus the value, as estimated by the Chief Valuer of the Department of State Taxation, of that area of his land which would have been occupied by the parking spaces;
- (b) Before the Council agrees to accept a cash payment in lieu of the provision of parking spaces, the Council must either have already provided a public car park nearby, or must have firm proposals for providing a public car park area nearby within a period of not more than eighteen months from the time of agreeing to accept the cash payment; and
- (c) Payments made under this clause shall be paid into a special fund to be used to provide public car parks and the Council may use this fund to provide public car parks in the Commercial area.

4.1.7 When considering an application to commence development the Council shall have regard to, and may impose conditions in respect of, the location and design of the required car parking spaces, natural planting and pedestrian spaces on the lot, and in particular, the Council shall take into account and may impose conditions concerning—

- (a) The proportion of car spaces to be roofed or covered;
- (b) The proportion of car spaces to be below natural ground level;
- (c) The means of access to each car space and the adequacy of any vehicular manoeuvring area;
- (d) The location of the car spaces on the site and their effect on the amenity of adjoining development, including the potential effect if those spaces should later be roofed or covered;
- (e) The extent to which car spaces are located within required building set back areas;
- (f) The locations of proposed public footpaths, vehicular crossings, or private footpaths within the lot, and the effect on both pedestrian and vehicular traffic movement and safety; and
- (g) The suitability and adequacy of elevated structural decks for development and service as a proportion of the required area natural planting and pedestrian space.

4.2 Landscaping.

4.2.1 The landscaping requirement shown in the Development Table or referred to in the Scheme means an open area designed, developed and maintained as garden planting and areas for pedestrian use, and at the discretion of the Council it may include natural bushland, swimming pools and areas under covered ways but no garbage collection and handling area, nor any other open storage area shall be included therein.

4.2.2 Access driveways between a street alignment and any buildings may be included in the landscaping requirement but otherwise car parking areas and driveways shall not be included therein.
