(ii) Amending the Scheme Text as follows:—

(1) By inserting a new Clause 25J immediately after Clause 25I as follows:—

25J. Light Industry Zone—Albany Highway, Maddington.

Special provisions relating to the Light Industry Zone fronting Albany Highway between Austin Avenue and Sampson Street, Maddington as delineated on the Scheme Map shall be as follows:—

1. Consideration of Development Applications.

In respect of any application for development the Council, where applicable, shall take into consideration:

- (a) those matters referred to in the Scheme;
- (b) the report and plan, dated 10 August 1982, prepared by Council titled "Maddington Centre Strategy Plan" insofar as the report and plan relate to the area subject of these provisions.

2. Development Controls.

The following shall be deemed minimum acceptable standards for development unless the standards for a particular development specified in the Scheme are greater.

- (a) The minimum lot size and frontage requirements shall be 1 500 sq. m and 30 metres respectively, except where a lot is created as part of the implementation of Town Planning Scheme No. 13 to a lesser standard.
- (b) Landscaped areas shall be required representing at least 10% of the gross area of the lot. These areas are to be planted and suitably landscaped to Council's satisfaction. In respect of properties fronting Albany Highway at least 75% of the total landscaping provisions shall be located along the Albany Highway frontage or otherwise as determined by Council.
- (c) Carparking requirements shall be in accordance with the provisions of Clauses 31 and 32 of the Scheme.

Access to the land from Albany Highway shall be in accordance with the Access Policy Plan dated 10 August 1982 with all exits being by the alternative roads leading from

Austin Avenue and Sampson Street. Cross-easement agreements as required by Council, providing reciprocal rights of access over the lots fronting Albany Highway and over the access handle strips where applicable, shall be provided as a condition of development approval. Council may permit the provision of temporary crossovers until sufficient redevelopment and consolidation of access is possible subject to the applicant entering into an agreement requiring the closure of temporary crossover at such time as alternative access is available.

- (f) Council may permit a reduction of Scheme provisions in relation to car parking, setbacks and landscaping up to a maximum 25% as an incentive to complying with the requirements contained in part (e) above.
 - (g) Council reserves the right to control the appearance of buildings and general land use in order to protect the overall amenity aesthetics of the area.
 - (h) No flashing signs, tower or roof-mounted signs will be permitted. Only signs relating to goods and services available on the premises will be permitted to be constructed on any lot.

3. Development Control Objectives.
